W. W. SANDERS, Publisher.

FRIDAY, JUNE 24, 1892.

## REPUBLICAN TICKET

### NATIONAL.

For President of the United States,  
BENJAMIN HARRISON.

For Vice President,  
WHELEW REID.

For Governor,  
THOS. J. MAJORS.

The Beatrice chautauqua begins next week.

Sioux City will not build a corn palace this year. It is too expensive a luxury.

President Harrison and David Swing the celebrated Chicago preacher, were classmates at Miami university.

The republican national committee will meet next Monday, at Washington, to effect a permanent organization.

The Omaha World Herald grieves over the fact that "the same old, ugly New York fight confronts the Chicago convention."

Tom Majors has been acting governor this week, while Gov. Boyd has been attending the democratic convention at Chicago.

Emmons Blaine, son of the ex-secretary of state, died last Saturday forenoon, from blood poisoning, the result of inflammation of the bowels.

All the prominent democratic leaders and newspapers admit that Harrison was the strongest man that could have been nominated by the republicans.

Bryan was renominated by acclamation at Nebraska City last Monday night, by the democratic convention, for congressman from the First district.

Judge Bright Morgan, of Mississippi, was shot dead Saturday morning, on the train, near Memphis, Tenn., while on his way to Chicago to attend the national democratic convention, to which he was a delegate.

The St. Louis Globe Democrat says it does not matter what the democrats say in their platform. They will have to go before the people on the record of the present House, and it is unquestionably the worst one that has been known for the last twenty years.

Nebraska City News: The republicans of Lancaster, Richardson and Pawnee counties have united upon Allen W. Field as their candidate for congress, and he will most likely be nominated on the first ballot. Otoo and Cass counties will vote for Judge Chapman, while Nemaha may support Church Howe.

Beatrice Express: In 1882 Great Britain made 8,493,287 tons of pig iron, Germany made 3,389,805 tons, and the United States 4,623,323 tons. In 1891 Great Britain made 7,228,496 tons, Germany 4,452,019 tons, and the United States 8,279,733 tons. This is a decrease for the free trade country of 14 per cent, and an increase of 33 per cent and 80 per cent respectively for the two protectionist countries. That is the kind of "victories" Cobdenism is winning these days.

We respectfully refer the following, clipped from the Lincoln Call, to a few of our citizens: Over in Iowa a church society has been organized on an entirely new scheme. The members who join can dance, play cards, drink, and bet on horse races if they want to, and the one who gains most fame and widest repute in these diversions, is accounted the one who is nearest the kingdom all the time. When the devil learned of the birth of this denomination, he "knocked off" work himself and gave his hands a half holiday in which to celebrate.

Western Normal College, Lincoln Neb. The leading normal of the west.

Other medicines might help but to make assurance doubly sure use De Witt's Sarsaparilla to enrich, purify and renew the blood. Taylor Bros and Bourne.

## GLOBE DEMOCRAT BRIEFS.

The democratic party has more second class candidates for first class positions than any other political organization in the world.

After having undergone several revisions and re-revisions, the "final and conclusive" figures of the population of the country in 1890 are put at 62,976,766. The total now must be in the neighborhood of 66,000,000. It is a great country.

Twenty-eight years ago, at Chicago, the democratic party declared in favor of peace at any price; and now, at the same place, it has a little war of its own which promises to be equally as disastrous to it as was the great one which it then opposed.

The democratic leaders generally confess that Harrison is the strongest man who could have been nominated at Minneapolis, and they will have abundant confirmation of this view as the campaign progresses.

The heart of the whole country will go out in tender sympathy to Mr. Blaine in his latest domestic affliction. Fate has dealt most unkindly with him in his family relations during the last few years, and his accumulated sorrows have probably done much to undermine his health and cloud his spirits.

The present British parliament, at the time it steps down, will have existed in the neighborhood of six years. This is over a year more than the average of the parliaments of this century. The six year mark has been exceeded only twice by the parliaments of the past ninety years, and then only by a few days.

The situation of Hill in this emergency is peculiarly humiliating and embarrassing. If Cleveland fails to carry New York on November 8 next Hill will be accused of "knifing" him, while if he carries that state Hill's influence in state politics will be belittled and his pretensions to leadership will be repudiated. In either case Hill is near the end of his political rope. When he steps down from the senate at the end of his term he will be as dead and discredited as Aaron Burr.

The people of France have always been regarded as thrifty and temperate. It is painful therefore, says the New York Press, to learn, in the Paris correspondence of a London newspaper, that "drunkenness has so much increased in France of late years that this country, once so sober, is now sorely puzzled to know what to do with its habitual toppers." The same writer adds that "the quantity of spirits consumed in France has increased enormously. The cheap bars for the working classes which have sprung up in all parts of Paris during the last year or so are undoubtedly doing much to increase the evil here. They are generally crowded, and the quantity of absinthe that is drunk in these places at all hours of the day is quite sufficient to explain the alarming increase of alcoholic madness."

From this it appears that Paris, too, is menaced by the saloon question, and that the country of cheap wine is rapidly becoming demoralized by cheap bars. All of which ought to be of interest to those social reformers who would promote sobriety by introducing a mild form of inebriety.

Lincoln Journal: A large force of men began work last week on the new tin plate mill which is being erected at Norristown, near Philadelphia, by the representative of W. H. Edwards, owner of a number of tin plate mills in the Swansea valley, Wales. He frankly admitted that the tariff had brought one mill over here and thought that it would be only a question of time until the entire company came over, and with it a large number of its neighbors from the district which has been making the tin plate of the world for generations. This particular factory will begin operations in about five weeks, and will turn out 140 boxes per week at the start.

A great school—Western Normal College, Lincoln, Neb.

Some of the Grand Army boys may be interested in the following from Alex. B. Pope, A. D. C. Commander Dep't Tenn and Ga. He says: "We have had an epidemic of whooping cough here. (Stewart, Tenn.) and Chamberlain's Cough Remedy has been the only medicine that has done any good." There is no danger from whooping cough, when this remedy is freely given. It completely controls the disease. 50 cent bottles for sale by Taylor Bros.

We are informed of the publication of a novelty in the book line which is certain of an enormous sale. This book is "Glimpses of the World. A Portfolio of Photographs" prepared under the supervision of the great traveler and lecturer—John L. Stoddard. It contains photographic views of famous scenes and places in all parts of the world. Every view is fully described. As an educator it is invaluable. It contains 550 pages, and nearly 275 views, and is sold by subscription at popular prices. The R. S. Peale Co., Chicago, are the publishers, and they desire an agent in this locality. They will gladly mail descriptive circulars, sample views and terms to all, on application.

Your railroad fare paid to Western Normal College, Lincoln, Neb. Write for particulars.
